

The system school buses are used for educational purposes, extracurricular and interscholastic activities, including literary events, music and athletic programs. With approval of the Board of Education, the school buses may be used by local civic organizations to:

1. Provide transportation to students and others to attend summer camps or to participate in other recreational or educational activities if the cost of such transportation and of any additional insurance costs deemed reasonably necessary by the school system are reimbursed in full from public or private funds other than public school funds; or
2. Provide transportation for the elderly, persons with disabilities, and 4-H activities if the cost of such transportation is reimbursed in full from federal, state, local or funds other than school funds.

The Superintendent is authorized to issue regulations to implement this policy.
